Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 13-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 5/10/04 and 7/19/04.
2. Applicant's election without traverse of claims 1-12 and 16-20 in the reply filed on 5/10/04 and 7/19/04 is acknowledged.
3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.
4. Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lutz (USPN 5849168) in view of Hoy et al (USPN 4727094) as set forth in the previous Office action mailed 9/30/03.
5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 1732

6. Claims 16-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Kennedy, III et al (USPN 6290614). Kennedy, III et al teach all of the claimed limitations.

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 16-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lutz (USPN 5849168) in view of Weber et al (USPN 4218543) as set forth in the previous Office action mailed 9/30/03.

9. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

10. Claim 20 is rejected under 35 U.S.C. 102(b) as being anticipated by Lutz (USPN 5849168). Lutz teaches the claimed golf ball.

11. Applicant's arguments filed 1/10/04 have been fully considered but they are not persuasive.

Applicant argues that the coating of Lutz does not constitute the claimed golf ball cover layer. Examiner agrees that the coating of Lutz is not a golf ball cover layer,

however the instant claims are not drawn to a golf ball cover layer. In accordance with the definitions provided by applicant in the response filed 1/10/04, it is clear that instant claim 1, which recites in the preamble "A method of forming a cover on a golf ball, " is not referring to a golf ball cover layer because the term "golf ball" is inclusive of a golf ball cover layer. Further, instant claim 1 does not positively recite a step of injection molding a golf ball cover layer. The claim merely recites injecting a mixture to cover the golf ball product. The word "cover" as used by the claim is a verb not a noun. Instant independent claims 16 and 20 are written in the same manner as instant claim 1.

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
